

SPRING CONFERENCES

To the Parents of: _____

Our class, along with several other classes, has decided to participate in **Student-Led Conferences**. These conferences will provide an opportunity for your students to reflect upon their successes during the year and to provide you with examples of what they have learned in class. We emphasize that these are student-led conferences and that the teachers will be attending as observers, but not as active participants. These conferences will be held in 20 minute blocks. The following is the available block times. Please select the top two times that work best for you and your student. Times will be assigned based on the order of forms returned. Please be sure to be on time, as there will be 5 students from our class assigned to the same time.
